

**Nawrocki Holdings** is a family business that originated in Poland in 1976. We began making durable, textured cloths that are tough on baked-on food but gentle on dishes. In 1980 we imported our wonderful scrubby to sell in our gift and tableware store. It became an instant hit. As interest in our original scrubby grew, we distributed it to other retailers across Canada.

We named our scrubby "The World's Best Potscrubber". Word of our fabulous product spread quickly and we were flattered by our many imitators. Although they copied our literature and called their product "original" or "best" and "finest", our scrubby will always be THE original and THE best.

We love our scrubbies and we make them from start to finish. We design them with our own patterns and labels and coordinate threads and colours to produce quality products that are visually appealing. Our family in Poland is still our exclusive manufacturer.

Although we originally named our scrubby "World's Best", our customers usually referred to them as "Rainbow Scrubbies" because of their bright, rainbow colours. In 2015 we decided to make the obvious change and renamed our product, "The Rainbow Scrubby".

Regular Scrubby

12.5 cm by 16.5 cm  
5" by 6.5"

Large Scrubby

15cm x 23 cm  
6" by 9"

Sponge Scrubby

12.5 cm by 16.5 cm  
5" by 6.5"
